

Two Killed, Others Injured In Series Of Local Mishaps

Two fatal automobile accidents, one at Crystal Bay in Nevada and the other near the River Ranch on State Route 89, marred the record traffic in this district during the holiday weekend.

William M. Hallanan, Jr., 50, of Sacramento, was killed Friday at 9:45 when his car left Highway 89 and crashed into a large rock. The body was taken to Colfax where an autopsy was held to determine whether Hallanan suffered a fainting spell which caused him to leave the road. He was alone in the car and was en route to the family summer home at Homewood.

Dennis Hull, 16, Sacramento, was killed and three other teen agers injured when their car plunged off Nevada State Route 28 near Crystal Bay and plunged down a 200-foot embankment.

Taken to a Reno hospital in serious condition were Dorothy Bailey, 17, Santa Rosa, her sister, Eloyse Bailey, 18, and John Hazzard, 16, of Stockton. It was not immediately determined who was driving the car.

Robert M. Salinas, 24, Cambria Air Force Base, suffered major injuries when a car driven by James (Continued on Page 8)

Boy Injured When He Runs Into Car

Casey A. Morse, an eight year old Berkeley boy, escaped serious injury at 9:40 a. m. Monday when he ran into a car driven by Frank J. Schneider, 42, of San Francisco in front of the Donner Lake Coffee Shop on old Highway 40.

According to witnesses, the boy apparently waited for two motorcycles to pass then started to sprint across the road and ran headon into the Schneider vehicle. Presence of mind by the driver, who swerved sharply to avoid striking the boy, is believed to have prevented a more serious mishap.

The boy was taken to Tahoe Forest Hospital for checkup and released.

Annexation Plans For Donner Fire Department Made

Plans for the annexation of the Donner Lake community into the Truckee Fire Protection District are progressing.

N. F. Dolley, president of the Truckee board and Dr. Robert A. Feldt of the Donner Lake Fire Department, said that a resolution from the Truckee district will be forwarded to the Nevada County Formation Commission in the near future for approval of that agency and the matter then will go to the board of supervisors for final approval.

The annexation plan, designed to provide more adequate fire protection to the entire Truckee-Donner area and equalize the costs for the service has long been the aim of the two departments.

At the last meeting, the Truckee board adopted the required resolution.

Probe Continues In Ibsen Murder Story

With the discovery Wednesday of the body of Delbert Howard, prominent Indian official from Winnemucca, Nevada, in the foothills southwest of Reno, the district attorney at Winnemucca said he would file murder charges against Clyde Ibsen, 30.

More intensive investigation into the disappearance of Delbert Howard, prominent Winnemucca Indian, was started last week following a lie detector test given Clyde Ibsen, who has contended that he killed Howard near Hirschdale shortly after he disappeared July 8.

Ibsen was arrested two weeks later in Howard's car in Florida and was returned for questioning. He is alleged to have confessed to Winnemucca officials that he beat Howard to death with a soft drink bottle and buried him in a shallow grave near Hirschdale. Later he returned to the spot, he told officers, loaded the body into Howard's car and drove to southern California where he weighted the body and tossed it into the Pacific Ocean.

Sheriff Wayne Brown, who was called to Nevada to take Ibsen into custody after the alleged confession, went with Ibsen to the spot where he was said to have disposed of the body but searchers found nothing and charges against the suspect were dropped and he was returned to Nevada to face a car theft charge.

Reno and Nevada officials declined to say whether or not the lie detector test revealed anything new in the case.

Horsemen Plans For 1966 Train To Be Complete Soon

The Donner Memorial Wagon Train next year will be held from August 24 to 28 over the same road which was traveled this year.

This decision was reached at a meeting of the directors of the Truckee Donner Horsemen's Association at the home of President Frank Snyder last Thursday evening when plans for the trip were outlined with a schedule of activities.

It is the hope of the Horsemen that the new rodeo grounds at the Truckee Donner Recreation park will be completed by that time so that the trip will conclude with a rodeo to which some of the best riders in the west will be invited to participate.

By starting the plans for the trip and rodeo early, Snyder said, it will be possible to have more entries, a better programmed trip and a full week of activities.

The train will form, as it did this year, at Campbell's Hot Springs near Sierraville where the first evening will be spent in a celebration at the resort, marking the start of the trek over the same general terrain that was covered this year.

Randy Bobby, director of the Truckee-Donner Recreation and Park District, said the district will cooperate with the horsemen in providing the rodeo ground on an area of approximately nine acres. Details, he added would be worked out by the directors of the district.

Bit Of Winter Hits Mountains In Area

This area experienced its first bit of winter Monday when a chilly rain brought 1.18 inches of precipitation to Truckee and snow covered the higher elevations.

On Donner Summit the rain was accompanied by hail, sleet, lightning and was followed by fog, to give that area one of the most unusual bits of weather in its history. Three inches of snow fell on the summit of the Brockway-Truckee shortcut and a small amount fell between River Ranch and Tahoe City, blanketing Highway 89.

Mount Rose and other peaks east of here were white Monday morning. The weather moderated Tuesday and Wednesday and warm, dry weather is predicted for the fall.

Sportsmen To Hear Officials Report In Meeting On Friday

An important meeting of the Truckee Outdoor Sportsmen will be held in the museum at Donner State Park on Friday night at 7:30 p. m., September 10. Present at the meeting will be inland fisheries officials of the department of fish and game, Sacramento. Fisheries Supervisor Ray Dunham and Fisheries Biologist Dick Beland will be there to answer questions pertaining to the fisheries programs throughout the area.

They will discuss the proposed trout limit reduction for Donner Lake, from the present 10 fish limit to five fish. In conjunction with the reduced limit, the size of planted trout would be increased from the seven inch average now being planted, to an average size of 10 inches.

The ultimate goal is to develop Donner Lake into a trophy fishing lake where larger than average fish can be taken.

Dunham and Beland will also answer questions relating to the Webber Lake habitat improvement and fish planting program that is now being carried out.

Questions regarding the fishing success, or lack of it, in Prosser and Boca Reservoirs and future plans for these lakes can also be directed to Dunham and Beland.

Sportsmen interested in the future of fishing for this area should turn out for this meeting.

The assignment of the new officer gives the local squad two sergeants, Sergeant Don Wallace and Brown. Lieutenant Oliver Ledford, commander of the local unit, said at least three more officers will be sent here before winter.

Mother Of Truckee Woman In Storm

A clipping from the East Berlin, Pennsylvania, newspaper tells of the loss suffered by the family of Mrs. Muriel Frey of Truckee during a recent storm there.

It related that Mrs. Frey's mother, Mrs. Cora Eckert, 85, and her son, David, were in their 12-room farm home when a twister struck, ripping off the roof and the second floor, permitting torrential rain to ruin most of the furnishings and decorations.

The loss was estimated at \$35,000 on the 200-acre farm. Hail in the shape of icicles destroyed the crops and the cyclone ruined most of the buildings.

Mrs. Eckert is well known here where she has often visited. Fortunately, much of the loss was covered by insurance.

School Enrollment Shows Big Gain In Local District

There was an increase of 5.75 per cent over last year in the enrollment on the first day of school in the Tahoe Truckee Unified District.

On the opening day of the 1964-65 school year there were 1755 students enrolled, compared to this year's 1856, according to District Superintendent John S. Corbin.

Both Donner Trail and Truckee elementary showed a slight drop, the former probably due to the fact that road construction has been completed and the latter because many students are still on vacation with their parents.

Donner Trail dropped from 36 last year to 24 for this year, while Truckee went from 438 to 414.

Kings Beach was up from 335 for the 1964-65 enrollment to 390 this year and Tahoe Lake School advanced from 474 to 541.

Another application is from Boreal Ridge Corporation for construction, maintenance and operation of a recreation center, privately operated, on property owned by the Auburn Ski Club in AI Zoning district at the south side of Interstate 80 and Castle Peak Intersection, four miles east of Soda Springs.

The third application is for a variance setback reduction in C Zoning district at Donner Lake by Alfred F. Gammell for reduction of the front yard requirement from 20 to 16 feet to allow for construction of a porch on the property at South Shore Drive and Old Highway Drive.

Tax Rate In Area To Set New Mark As Items Listed

Property owners in portions of Truckee which are included in all the special districts will pay a tax rate this year of \$8.30 per \$100 assessed valuation.

The basic county tax rate will be \$2.58, but that is not the complete story. In addition there is a special road tax of 40 cents in the fifth district, school district taxes, plus interest and sinking fund (bond) taxes and several special district taxes.

For the first time this year, Nevada County will pay a state area-wide school equalization tax that will total 70 cents, due to legislative action. This tax is being levied due to the failure of the unification vote within the year, the rate being arrived at through a state formula.

Districts which voted unification enjoy some of the privileges made available through the state department of education and the legislature. Those counties which voted on unification and failed to carry, must pay the area-wide equalization tax within the county, the same end result in education financing that unification would have brought. Those districts which have not voted are proceeding under the old formula and do not pay the area-wide equalization.

This tax is in addition to 9-cents for the Collier factor tax levied for school purposes as a gesture to equalize school taxes with the average throughout the state.

THE STORY
A breakdown of the taxes in the fifth district and more specifically Truckee-Donner shows the following:

Total Countywide	\$2.58
Special 5th Dist. Road	.40
Tahoe-Truckee Unified	1.87
Sierra College	.57
Special Equalization Fund	.09
Area-wide Equalization Fund	.70
Int. & Sink. Tahoe-Truckee	.50
Int. & Sink. Sierra College	.09
Truckee Fire Dist.	.47
Truckee Cemetery	.02
Tahoe Forest Hospital	.20
Truckee Tahoe Airport	.20
T-D Recreation & Park	.22

TOTAL 8.30

The Donner Summit Utility District tax rate this year has been set at 50 cents.

They were treated with courtesy and enjoyed stopping when and where they wished without question.

On the 58-day tour, Baker spent 28 days in the Soviet Union and the balance of the time in other socialist countries.

Baker described the trip as enjoyable and educational.

Special Session Of Legislature Sept. 20

SACRAMENTO — (CNS) — Governor Edmund G. Brown made a surprise announcement Tuesday that he would call the legislature into special session on September 20 to consider the drawing of new districts for the assembly and senate to comply with a state supreme court December 9 deadline.

Brown's announcement caught most legislators and legislative advocates off balance because it had been expected the session would be called for October 11. Some were unhappy. It was reported members were scattered all over the country, and some out of the country, on vacations.

Many others had planned vacations for late September on the expectation the session would be in October.

Brown said he was calling the session for September 20 to give the lawmakers plenty of time to work out bills to set up new districts. Brown said the supreme court order, which included a reapportionment plan that would be put in effect if the legislators failed to act, gave the legislature another chance.

No Cancellations Of Riot Area Insurance

SACRAMENTO — (CNS) — Stafford R. Grady, state insurance commissioner, said rumors of widespread cancellation of insurance or refusals to renew insurance coverage in the Los Angeles riot area were false and there had been cancellations or refusals to renew in only "a minute fraction of the insured properties in the area."

Grady said he met recently with principal officers of more than 100 of the leading fire and casualty companies doing business in California. He said the vast majority of companies fully intend to continue providing coverage for insurable risks. Grady said individuals who encounter problems should contact the state insurance department.

Meanwhile, Grady said some of the insurance firms were in the process of organizing an insurance pool, similar to the one which was organized to provide insurance coverages in the brush area after the Bel-Air fire. In addition, Grady said he was informed facilities of the surplus lines carriers would undoubtedly be available for extraordinary risks.

Waters First To File In Governor Contest

SACRAMENTO — (CNS) — Laughlin E. Waters, former assemblyman and former U. S. attorney in southern California, has announced he will be a candidate for governor next year, on the Republican ticket.

Waters had been a leader while in the assembly and was chairman of the elections and reapportionment committee in 1951 which set up new districts for that session. He was president of the Republican state central committee in 1952, a Republican national committeeman in 1952 and a delegate to a number of Republican national conventions.

Waters, considered a moderate Republican, said he felt his years in public service were a privilege and he has enjoyed them.

POSTPONE MEET

TAHOE CITY — The scheduled September 16 meeting for the Lake Tahoe Chapter Air Force Association will not be held and a special meeting to be called later with an explanation of the Civil Air Patrol Wing to be organized by the Lake Tahoe chapter AFA.

Use seasoning sparingly in foods that are to be frozen as some of them change during storage (for example, pepper gets stronger). It is best to add most of the seasoning when reheating.

Governor Still Quiet On Announcement

SACRAMENTO — (CNS) — The caravan of Labor Day weekend motorists who slushed their way through unseasonal snow in the high Sierra on Monday went through the experience for naught, as far as any announcement of political plans from Governor Edmund G. Brown was concerned.

Brown has been saying for the past several months he would announce whether he would seek a third term next year "when the snow first flies in the Sierra." The governor apparently was caught as were the thousands of motorists in the mountain areas.

"I'm not even thinking about it now," Brown said.

Most observers feel Brown is a

cinch to seek a third term—a feat only accomplished successfully by one previous governor—Earl Warren.

Brown Asks Solution In Redwood Hiway

SACRAMENTO — (CNS) — Governor Edmund G. Brown just back from an inspection trip in the north coast redwood area, said there is a real need for finding a solution to the freeways vs. scenery controversy in the area.

"It's not easy because the lumber industry is the heart of the economy in that area," Brown told newsmen. "Yet the tourist business is tremendous. We will have to sit down and really try to work out this problem."

The governor indicated that, while he was sympathetic to wishes of the Save the Redwoods people and conservationists in general, there also was a real problem of moving traffic, both local and those traveling distances.

"On the present two-lane highway, you can get behind a big lumber truck," Brown said. "You can't move and you can't enjoy the redwoods either."

Brown said parkway type highways might provide a solution—something between a two-lane highway and a full freeway.

Bollin Named Head Of Lions Cane Drive

Lion Dick Bollin was recently appointed chairman of the Lions Club White Cane Days drive which will be held on September 11, according to Lion President Frank Giovannoni, who adds that his club is sharing with nearly 800 other Lions Clubs of California and Nevada in telling their cities of the great work done in this area.

The White Cane Days event, which raises funds for the local Clubs' Blind and Sight Care work, is entirely financed by the Lions Club so that every cent donated is used in this phase of the club's community service, declares Frank Giovannoni.

Concern for the blind and sight-needy is one of the basic projects of Lions International, and this two-state region, known as Multiple District Four, has raised more than \$2 million dollars in less than 15 years for exclusive use in this field.

Types of sight services rendered by Lions of California-Nevada vary from examination and determination of kind and extent of eye deficiencies to the repair and correction of particular problems where the need exists, and includes efforts to adjust those who do not see to their life in a seeing world.

Many clubs have established and are operating eye clinics and re-

lated services, while others share in the schooling—either part or full time—of young people who seek to be self-reliant despite their handicap. Many youth so helped have stepped out into a normal place in their community; some enjoy day school learning by use of Braille books and tape recorders, and others hold jobs which some private enterprises offer to the handicapped.

"The important fact is that through Lions Clubs' efforts, many individuals hold their heads erect and live a fuller life because of the dimes and dollars that have pyramided into a myriad of good things which never could have been if Lions had not led their communities in the White Cane Days Parade of assistance," says Mr. Giovannoni.

Outstanding among the local Truckee Lions Sight Conservation projects have been: The purchasing of eye glasses and eye examinations for all needy children in the Truckee-Tahoe Unified School District with no cost to their parents.

The first patent on a refrigerator was issued in 1803.

How to find happiness as a mother-in-law

No reason to be sensitive about being a mother-in-law. There are a lot of happy ones these days.

Like the ones who start the bride and groom out saving—with a gift of U. S. Savings Bonds.

This provides them with the wherewithal for those little emergencies that always seem to crop up with young couples. Or helps them meet the down payment on their first home. A gift of Bonds will tell them you're happy to help.

If it's a bit late for a wedding

gift, Bonds make a good way to celebrate grandmotherhood, too. Bonds will grow right along with the new baby. And he'll get back \$4 for every \$3 you invest if the Bonds are held to maturity.

Millions of Americans help themselves—and others—with U. S. Savings Bonds. And every dollar they invest helps their country spread the freedom word a little farther.

Any way you look at it, U. S. Savings Bonds make a dandy nest egg. And a very happy mother-in-law.

DEFENSIVE DRIVING—Always be alert to take the proper defensive action when there is a vehicle passing, advises the California State Automobile Association. (1) If the vehicle cuts in too soon, slow down or move to the right if necessary. (2) Be sure to maintain clearance by allowing enough space to pass. The pattern of incidence of the disease has changed considerably, with the dog being removed as the villian and skunks, bats and foxes being the main carriers.

The department said that, 10 years ago, the 4083 dog rabies cases accounted for 56 per cent of the animal rabies in the U. S. However, in 1964, dogs accounted for less than 10 per cent of the total cases, while 75 per cent was found in wild-life.

Rafferty Advances New School Idea

SACRAMENTO — (CNS) — Dr. Max Rafferty, state superintendent of public instruction has proposed the California legislature, in its special session this fall, appropriate \$12 to \$15 million in new state money to provide bonus pay for teachers in slum areas or ghettos.

Rafferty made this and other comments in a press conference following a four-hour meeting with superintendents from throughout the state. Rafferty said some of the superintendents, including one from Los Angeles, said they anticipated racial troubles when schools open next month and were preparing for them.

Rafferty made six recommendations to the superintendents for easing of racial tensions. He said superintendents appeared to agree with all but one and that was the one providing for salary bonuses for teachers who are capable of doing outstanding jobs in slum areas.

AFFAIRS OF STATE

Henry C. MacArthur

SACRAMENTO — (CNS) — In a recent decision of the California Unemployment Insurance Appeals Board, it was held that a claimant for benefits can quit a job, and collect while engaged in taking a federal manpower development and training course, for retraining for another job.

The claimant in the case enrolled in the federal course, and found it interfered with her regular job, so she quit working and filed a claim for unemployment insurance.

The department of employment, which has the first say on eligibility of the individual to draw funds from employer reserve accounts to theoretically finance period of involuntary unemployment, denied this particular individual's claim.

Whereupon she finished the retraining course, found no jobs open to her, re-opened her claim for insurance, and appealed to the board when the department held she had left her job "without good cause."

The appeals board, which in the past has engineered some peculiar thinking in its decisions, as far as the original purposes of unemployment insurance are concerned, lived up to its past actions in this particular case. It held that as long as California law permitted claimants to draw unemployment insurance while being retrained, the same provisions should apply as far as federal law are concerned.

Under state law, it is the purpose of the legislature to pay unemployment insurance to people whose employment is "impaired by advancement in technological improvements and the widespread effects of automation and relocation in our economy."

In the case decided, the claimant was taking a secretarial refresher course, and her employment consisted of a job as waitress-dishwasher in a drive-in.

Further, state law is silent on whether benefits should be paid when a claimant is undergoing federal retraining, rather than state. It can also be said that the field of secretarial work and waiting on customers at a restaurant have little to do with job competition in the fields of industry, space, and other jobs demanding special skills.

Commendable as the desire of a claimant to qualify for a better job may be, there appears to be little reason why a government agency should impose charges on an employer account to finance retraining for people in fields where public education is available, such as secretarial work, particularly when the original purposes of unemployment insurance were to provide a stop gap for workers who were unemployed through no fault of their own, in other words, were the victims of "involuntary" unemployment.

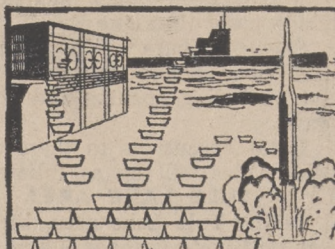

However, successive administrations, sparked by demands from labor lobbyists, have turned the program into another welfare give-

Conservation Fund Revealed For State

WASHINGTON, D. C.—Secretary of the Interior Stewart L. Udall has advised Congressman Harold T. (Bizz) Johnson of the Second, mountain-valley counties, district that California will receive \$4,296,894 from the land and water conservation fund.

This is the state's share of approximately \$76 million which has been allocated to states and territories from the fund, Congressman Johnson said. The funds must be matched by the state agencies in developing conservation and recreation facilities.

The fund, administered by the bureau of outdoor recreation, derives revenues from the sale of the new federal recreation conservation sticker and other federal outdoor recreation fees.

Result has been an enormous cost to employers of California, who are paying to allow many claimants to exist in voluntary idleness. And as well, they are meeting the demands of the administration for increased give-away under the program.

NEW SHOW AT LAKE LODGE

CRYSTAL BAY—With the solid rockin' beat of the "modern" sound, the Watusi Whing Ding revue was unveiled before a capacity crowd Thursday night in the Topaz Room of North Lake Tahoe's Nevada Lodge. And the S. R. O. crowd was not disappointed in what they saw and heard.

In the words of one ringsider talking the lingua franca of the modern American . . . "It's a gas, man" and the Watusi Whing Ding sure is! A stunning new revue featuring magnificent show girls, striking stage settings and startling costumes—Watusi Whing Ding is "1966" modern in every respect.

The twenty dancers in the new revue showcase the steps that most viewers will be doing next year. Starting with the Watusi, the upbeat group gyrates forward to the Frug, Monkey, Jerk and then speeds a light or two into the future with some modern dances that simply cannot be described.

Opening at the Nevada Lodge, September 14 will be the Esquire Trio the well-known trio that has played many repeat performances at the Nevada Lodge. Formerly associated with Doris Day, the group is considered one of the leading supper club acts in the West.

DONNER DOINGS . . .

By Vi White

From the looks of the weather last Monday, summer is going to jump right into winter. Rain and snow caused a mass exodus of vacationers from the area Labor Day. Guess we'll have to get out the ole ski clothes again. Hope though this "unusual" California weather subsides and the beautiful Indian summer appears soon.

It was septic ahoy over at Kings Beach last Saturday! Something new in septic tank delivery was accomplished at Tahoe. Nancy Brodie of Dollar Point reports that Hans Osterud decided to deliver a concrete tank from his Kings Beach business to Sunnyside via water, without benefit of a boat.

All went well with Olympic skier Billy Kidd acting as captain of the strange craft. A small outboard motor was attached to the back and an ingenious sail made out of a parachute helped keep the thing sailing. Fortunately the waves weren't too big, as the freeboard was only a couple of inches high.

After a brief stop at the Brodie pier, the "S. S. Septic" hugged the shore line for three hours and was safely delivered.

But a lot of people couldn't believe their eyes when they saw the

floating septic tank.

Several entries have been received for the Lido regatta to be held at Donner Lake September 18-19, by the Donner Lake Sailing Club.

We were all saddened at the sudden death of our neighbor Joe Corro last Tuesday by a heart attack and wish to express our sincere sympathy to his wife, Marcella, and children, Joey and Janet. The Corros have operated the Lakeshore Motel at Donner Lake for six years and have been active members of the community. Joe will be greatly missed by his many friends.

 her husband, Stephen and their children, Patrick, three years old and seven months old daughter, Kelly of Salt Lake City.

Mrs. Annabelle Elliott of Los Angeles has been a house guest of her son and daughter in law, William and Helen Elliott of Tahoe Vista.

Mr. and Mrs. Lloyd Iames of Salt Lake City have been house guests of their daughter and family, Caroline and Bill Elliott at Carlinian Bay.

Lee Aversent of Tahoe Vista returns to San Jose the 14th to do a demonstration of flower arranging and art with flowers. She will also exhibit her collection of dried wild flowers from the Sierra which she had made over the past several years.

Cathy McIntire of Tahoe Vista, daughter of Harry and Vivian McIntire, spent a week with her uncle and family, Billy and Rita Hindman at Elgin, Oregon.

Billy will enter his team of Belgian horses at the rodeo at Ellensburg, Washington. Last year he won the championship and hopes for a repeat performance this year.

Bob and Tally Daneri of Kings Beach motored to Fallon Saturday night to attend the Lions Club rodeo. On Monday the Deners went to San Francisco on a business trip.

The Lake Tahoe Lions Club was honored at their Tuesday night meeting by a visit from District 4 Governor of the Lions Club, State of Nevada who made his first official visit of the year to this meeting at the Chataux. Walt Mandeville is Lions Club president and Bob Daneri past deputy district governor.

Vacationing at Tahoe Vista for the weekend were Bethel Van Tassel and son, Peithor and Pat Cinani of Reno.

Kermit McMillan has been named accountant for the Incline Village Improvement District. He replaces Fred Schultz of Crystal

Shores who worked in a part time capacity but resigned recently to go into the real estate business.

During the stay Bethel and Simon Martin were guests at the Louis Armstrong and Robert Goulet shows.

Many thanks to John Tita and to Andy of Cal Neva's Celebrity Room for their courtesies.

Sunday guests from Reno to the Brockway home of Harry and Ceta Hooper and sons, Jon and Charles, were Dr. Calvin and Viola Reed and Captain George and Helen Kekuna and children, Denise, Debra, Betty Jo and George, Jr. Bethel Van Tassel and son Pieter and Pat Cinani.

George entertained guests with songs of Hawaii while daughter, Denise, danced the hula to "Lovely Hula Hands."

The Kekuna's Hawaiian names are very interesting, George Sr.'s is Luluupukaukawekiu, Helen's is Lehua, Denise is Kapiko, Betty Jo is Kuu Ipo, Debra, Uulani and George, Jr., is called Koki which is a shorting of George, Sr.'s.

Barbecued chicken and homemade ice cream were specialties of a pleasant day.

Dick and Ruth Lavery—nomads for the summer—have returned to Incline Beach where they are guests of John and Jerry Rayburn. Immediate plans are for a new home in Cal Neva Highlands.

On our return to Reno Labor Day three inches of snow greeted us on the peak of the Brockway-Truckee shortcut. Early winter?

Department Defines Goose Regulations

The department of fish and game has redefined 1965-66 hunting regulations, seasons and bag limits on geese as officially adopted by the California Fish and Game Commission.

The general statewide goose season will open on October 23 and extend through January 9, 1966. Limits on geese will be six per day, six in possession, including not less than three snow geese and not more than three geese of the dark species.

For all of California, daily bag and possession limits may not include more than one Ross's goose. Shooting hours will be from one-half hour before sunrise to sunset, including opening and closing days.

Local exceptions to these statewide rules will be as follows:

TULE LAKE AREA
 In the Tule Lake area, the season will open October 9 and close at sunset, January 6, 1966.

The bag limit in this area will be three geese per day, six in possession, except that the daily bag limit may be increased to six provided three or more are snow geese.

A precise definition of the Tule Lake area hunting boundaries may be obtained through any DFG office. The department advises that a change in the boundaries this year brings the entire Sierra Valley into the Tule Lake area.

Decrease Is Noted In Highway Deaths

SACRAMENTO — (CNS) — Decrease in California traffic deaths from last year was reported today by Bradford M. Crittenden, highway patrol commissioner.

The death record for the first seven months of this year totaled 2,539, compared to 2,585 for the same period last year.

July deaths this year totaled 377, down 90 from the same month in 1964. This represented the largest

decline in comparable months in ten years, Crittenden said.

Drop in the July 4 holiday toll was partly responsible. Last year, 84 were killed during the holiday. This year, the total was 53 deaths for the period.

Injury accidents were up slightly, rising from 4,459 in July, 1964 to 4,506 this year. Injured victims totaled 7,494 this year compared to 7,487 in July, 1964.

Mr. and Mrs. F. A. Kilner will return to Laguna Beach for the fall and winter seasons.

Lutheran Church For North Tahoe

The 3.2 million-member Lutheran Church in America, largest Lutheran body in the United States, has begun work on Lake Tahoe's North Shore. The work, under the direction of the LCA's Board of American Missions, is beginning in the area, under the leadership of board missionary, Rev. William Dowling, who with his family, arrived in the area recently.

According to the pastor, the first step will be the canvassing of the area, beginning in Incline Village and spreading across the entire North Shore, and as far away as Truckee. It is expected that an announcement will be made, possibly within the next two weeks, concerning the purchase of a site, upon which permanent facilities will be constructed.

It is hoped that workshop services and an educational program might begin this fall.

Pastor Dowling, a graduate of San Diego State College, and Pacific Lutheran Theological Seminary in Berkeley, has for the past five years been pastor of Shepherd of the Valley Lutheran Church, Merced.

In addition to his congregational duties, he also served as the president of the Merced Ministerial Association, and was the first chairman of the economic opportunity commission of Merced County. Pastor Dowling, his wife Barbara, and daughters Victoria and Kimberly, are residing in Kings Beach.

Valentine Tells Of Early Tahoe Visits

TAHOE CITY—C. O. Valentine of Costa Mesa, a young nonagenarian of Tahoe, wrote friends here, recollecting his first trip to the lake when a child, in the 1880's.

At that time three wagon loads of neighbors camped at the south end and moved across to Tallac for a spell, returning over the Pony Express route to Placerville, Georgetown, Coloma and Lotus to the Valentine ranch. Indians still inhabited the wild and grand country, the writer recalled.

Valentine and his late wife had a gift and photography shop at Tahoe Tavern, recently demolished. Among others, the four generations of the Al Henry family of Tahoe have kept many of the beautiful, early scenes taken by the Valentines.

He continues in good health, sending his best wishes to those he knew in years past.

Accidents (Continued From Page 1)

M. Bartlett, 24, Mountain View, smashed into the rear of a truck and trailer driven by James F. Welch, 30, of Lovelock, Nevada, a mile east of the Kingvale interchange on Interstate 80 at 10 a. m. Saturday.

Salinas was taken to Tahoe Forest Hospital and later removed to Washoe Medical Center in Reno. Bartlett suffered only minor injuries. The highway patrol said Bartlett apparently went to sleep at the wheel.

MORE ACCIDENTS

At least five injury accidents and several "fender benders" were reported to the California Highway Patrol Monday when rain was blamed for slick roads over Donner Summit.

Three people in a car driven by Mildred E. Alsberge, 51, Salinas, suffered injuries when the car skidded out of control at 12:20 p. m. near Castle Peak interchange. Besides the driver, injured were Clayton O. Alsberge, 60, and Gail Buckman, 20, also of Salinas.

At 4:45 p. m., Neal Vickery, 34, and Betty Vickery, both of Reno, suffered minor injuries but were treated at the hospital after the brakes failed between Castle Peak and Donner Lake interchange.

Robert W. Kramer, 27, Napa, was injured when his sports car skidded a mile west of Emigrant Way and struck a berm, which prevented the car from dropping down the embankment.

Donald E. McKinzie, 34, stationed at Beale Air Force Base, was injured Monday and a companion known only to investigating officers as Staff Sergeant Tom disappeared after their car was wrecked on Donner.

Another accident, a report of which was still incomplete, sent Richard Johnson, 32, Eureka to St. Mary's Hospital in Reno with serious injuries.

Mrs. Claire Good and daughter Linda of Woodland visited the Angelo Besio family.

Criminal Complaint Filed In Deer Case

The department of fish and game disclosed it has filed a criminal complaint against an El Dorado County rancher suspected of killing and burying at least 30 deer on his cattle ranchland.

DFG wildlife protection branch chief, Charles E. Fullerton said in Sacramento that criminal charges have been filed against Dr. Walter Krell, retired veterinarian, owner of a large ranch two miles west of the Mother Lode community of Rescue.

El Dorado County District Attorney Jack Winkler issued the complaint in the court of Judge J. B. Johnson of the El Dorado judicial District.

Fullerton said Krell has been charged with failure to comply with fish and game commission requirements that deer killed under a depredation permit be properly tagged, that carcasses be delivered to a location agreed to at the time the permit is issued, and for allowing deer meat to spoil.

License Issued—

A marriage license was issued in Nevada to William DeHart, 22 of Big Bend and Patricia Bishop, 21 of Oakland.

Girl for Hollemans—

Mr. and Mrs. David Holleman of Truckee became parents of a daughter, born September 3 at Reno.

Tahoe Declines To Enter Sewer Study

Directors of the Tahoe City Public Utility District declined to adopt a resolution which would have formalized the appointment of an engineer to a committee to study a proposed super agency to find ways of sewage disposal from the North Tahoe area and appropriate \$1000 for committee costs.

A resolution for adoption by the three interested utilities in the region, the Tahoe City Public Utility District, the North Public Utility District and the Truckee Sanitary District was proposed to get the study started.

The resolution was not to become effective until all interested agencies agreed to participate.

At their meeting last week, the Truckee board tabled the resolution and Willis Mizner, president of the NTPUD board, said his group wants more information before appropriating any money.

The proposed study envisioned a major disposal system which would care for all of North Lake Tahoe, Truckee, Donner Lake, Squaw Valley and other growing entities through a huge pipeline paralleling the Truckee river. A disposal plant would be located east of Truckee.

Rather than await the outcome of the study, the directors of the Truckee Sanitary District resolved to continue with plans for a system to serve the area west of Truckee including Donner Lake utilizing funds from the recently approved bond issue, plus federal assistance which brings the total to \$761,000 for a start of the project.

County Assessments Accepted By State

SACRAMENTO — (CNS) — The state board of equalization announced today it has accepted assessments of property in all the counties of California, and that it will issue no orders for change in any county levels this year.

The board accepted county assessment ratios which varied from 3.9 percentage points below the state-wide weighted average of 21.8 percent of cash value, to 3.6 percent above.

The varying ratios are equalized for state school aid purposes, and repayment of state loans for school construction under the complex mathematical leveler known as the Collier factor.

San Jose Firm Low For Marina Work

AUBURN—Earl W. Heple, Inc., of San Jose, was the apparent low bidder this week to provide improvements such as water and streets for the Tahoe Marina Assessment District.

The Heple firm submitted a bid of \$139,100, considerably lower than that of the other bidder, A. Teichert and Sons of Sacramento, which offered its services for \$216,815. The engineer's estimate for the job was \$141,000.

In another action, Sutherland Construction Company of Auburn was the only bidder for reconstruction of portions of Placer Hills and Dry Creek Roads. The Sutherland bid was \$34,934, lower than the engineer's estimate of \$37,029.

The board of supervisors will award the job contracts next week.

Part Of Tahoe Will Be Closed For Race

TAHOE CITY—To accommodate the drivers in the unlimited hydroplane races at South Lake Tahoe September 21 through 26, the U. S. Coast Guard has announced special local regulations and will close the area to be used by the big hydros.

The area will be closed from 9:30 a. m. until 5:30 p. m. on each of the days designated.

The area, as announced by the coast guard is from the northern extremity of Elk Point 250 degrees true for a distance of 2300 feet; thence 160 degrees true to the shoreline; thence northerly along the shoreline to the point of origin.

The speed qualification trials will be held September 21 through 24 and the world championship regatta on September 25. In event weather conditions prohibit the regatta on the 25 it will be held September 26.

Applications For Smog Devices Here

Applications for licenses to operate official smog control device installation and inspection stations will be accepted by the California Highway Patrol office at Truckee, beginning September 15, it was announced by Lt. O. P. Ledford, officer-in-charge.

"A handbook explaining station requirements and the necessary application blanks can be obtained after that date," he said.

Under the revised motor vehicle smog control program created by 1965 legislation, two classes of stations will be established. Class A stations will be authorized to install and service both exhaust and crankcase control devices; Class B, crankcase devices only.

GAY GIBSON shows English wit

In this MODern version of the jumper, previewed in August Mademoiselle magazine. A studiously simple plaid of Orlon-acrylic-and-viscose-rayon, it plays ribbon trim to the hilt in front; on the flip side, sudden suspenders and a low-cut back. We think it's newsy as the world's newest jetliner (the BOAC VC-10). In red or grey crisscrossed with navy, over a white Decron-polyester blouse. Junior sizes 5 to 15.
